

SENIOR SOFTWARE ENGINEER (f/m)

At spotsize, you work together with the creative and innovative minds in partnership and in a close exchange of Know-how. We offer an open work culture and an incomparable team spirit. We believe that job and passion are compatible and offer you the appropriate environment. For our technical challenges, we are looking for new colleagues who share our passion for working with the latest technologies. Love what you do - do what you love. Become a part of spotsize, a creative start-up that wants to change the world of online shopping!

WHERE YOUR EXPERTISE IS NEEDED

- The ideal candidate is experienced (min. three years) in building scalable Web- and SaaS applications preferably hands on with Cloud and micro services architectures in the E-Commerce section, a quick learner, proactive, team player, open minded and curious to experience an international team environment creating something simply new for the digital future of fashion ahead.

WHAT WE'RE LOOKING FOR

- Familiar with software architecture paradigms (microservices, event-driven) and REST API design (API-First Design) for building scalable/distributed systems
- Experienced with containers, Cloud services and infrastructure (GCP, GKE, K8s, Helm, Docker)
- Well-versed in Java and the Spring ecosystem
- Good DB skills
- Know-how in | Deep understanding of: Git, CI/CD, monitoring, infrastructure as code, security practices
- High focus on testing, code quality, performance, maintainability, and expandability
- Familiar with TS/JS
- Knowledge of frontend frameworks can be helpful

WHAT'S YOUR RESPONSIBILITIES

- Participate in the design and development of spotsized central nervous system (aka. platform)
- Provide rich APIs consumed by different clients (SDKs, iOS/Android apps, internal operations, etc.)
- Create, extend and maintain services (full ownership from design to deployment, monitoring and accessibility)
- Preserve, expand and improve a healthy cloud infrastructure setup
- Facilitate and support colleagues
- Keep documentation alive and up-to-date

PERKS AT WORK

- Attractive salary
- Start-Up culture, home office, flexible working times, and a nice and open atmosphere
- Culture of trust, empowerment and constructive feedback.
- Free beverages and fruits, diverse sports and health offerings.

We celebrate diversity and are committed to building teams that represent a variety of backgrounds, perspectives and skills. All employment is decided on the basis of qualifications, merit and business need.
